SUMMARY

I am an aspiring JavaScript developer and a recent B.Sc.IT graduate, enthusiastic about front-end technologies such as React and Next.js, as well as back-end technologies like Node.js and Express. I am seeking opportunities where I can contribute to impactful projects and grow as a developer within a professional team.

EDUCATION

Bachelor of Science in Information Technology

PROJECTS

AI SaaS Document Editor

<https://brainstormmm.vercel.app>

AI-powered collaborative workspace platform to write, plan and collaborate on docs and projects in real-time, all powered by integrated AI tools

- Role-based authentication for individuals and organizations using Clerk for secure user access and permissions
- Real-time collaboration features, including shared document editing, live cursors and AI-powered content suggestions
- AI-driven document assistant to generate, summarize, and translate content with Google Gemini
- Subscription-based system using Stripe, allowing for handling payments, cancellation and access control for premium features
- Responsive and interactive front-end using React.js and Next.js for an enhanced user experience

Password Manager

<https://senntinel.vercel.app>

A secure password manager built both as a web application and browser extension, focused on robust security and seamless browser integration

- Save, manage, and autofill passwords directly without leaving the browser
- AES encryption to ensure end-to-end protection of stored user credentials
- JWT-based user authentication and bcrypt hashing to secure user sessions and password protection
- Browser-based autofill and secure storage using Chromium APIs
- Built-in password generator to create strong and unique passwords instantly

SKILLS

JavaScript HTML CSS

React Next.js Node.js

Express Tailwind CSS

Bootstrap MongoDB SQL

GitHub Git Google Firebase

Stripe REST API
